#### SECTIONS EFFFECTED INDEX

#### INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register also contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred the current Register volume year and a Sections Affected Index listing by Title each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume year. Both indices are action coded and are designed to aid the public in monitoring rules.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update to the *Illinois Administrative Code* (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' rules.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1 et seq.].

- A Complete Description of the Subjects and Issues Involved: In January 1998, the Illinois ERPA Environmental Laboratory Acceditation Program (IL ELAP) applied for NELAP recognition as an accediting authority under the USEPA's National Environmental Laboratory Acceditation Program (NELAP/NELAC). At the NELAC Y annual conference (June 28-July 1, 1999), the USEPA announced the first class of "NELAP-recognized" accrediting authorities, including IL ELAP.

This recognition gave IL ELAP the authority to grant NELAP (national)

accreditation to laboratories participating in its accreditation program.

As a NELAP-recognized accrediting authority, IL ELAP is required to accredit aboratories to the adopted NELAC standards. The IL ELAP Part 186 regulations must be updated to reflect these adopted NELAC requirements. Each year at the Annual NELAC Conference there is a potential for the NELAC requirements to change. Therefore, the Illinois PRPA is amending PART 186 to incorporate by reference the NELAC standards.

## Initial Regulatory Flexibility Analysis:

- A) Types of small businesses, small municipalities or not for profit octoprations affected. The Department believes that these amendments may affect small businesses and not for profit corporations that are licensed by the Department to possess, use, distribute, store, treat or dispose of radioactive materials because in many cases, the annual fees are increasing. The Department believes that these rules will not have any direct impact on small municipalities.
- B) Reporting, bookkeeping or other procedures required for compliance: This rulemaking requires only the payment of a fee incident to registration and licensure and consequently does not require licensees to perform reporting, bookkeeping or other procedures for achieving compliance.
- C) Types of professional skills necessary for compliance: No particular professional skills are necessary for compliance.
- 13) Requlatory Agenda on which this rulemaking was summarized: January 2001
